

Ross Marimba Features:

- Three Octaves
- Prolon Bars
- Aluminum Resonators
- Adjustable Height

2010 East Highway 114, Southlake, TX 76092

Majestic's innovative Ross Scholastic percussion series provides young players with the benefits of playing on full-sized real instruments just as economically as their friends playing wind instruments. These models feature the same precision tuned bars found on marimbas, xylophones and vibraphones for quality sound and resonance, with the benefit of a lighter weight, height adjustable leg system.
